

# Awana in Africa Schools

God is opening doors in unprecedented ways!

Awana is being introduced into schools in seven countries in Africa as part of their weekly curriculum.

Awana will equip and empower Christian leaders with an intentional tool that can start preparing children and youth for leadership.

Awana will work with strategic in-country partnerships and ministry partners that will commit to this project through prayer and financial support.

---

**Current Opportunity:** Leadership in Zimbabwe took notice of markedly improved school attendance and behavior issues in the few schools that have incorporated Awana in their weekly curriculum.

They recently opened the door to public schools in Zimbabwe to be trained to integrate Awana into their schools. Zimbabwe has around 3.5 million primary age children, the harvest is great.

**Can you imagine being at the ground floor of an opportunity that not only exposes children to the gospel, but could change a whole nation!?!?** If Awana can bring Jesus to such a large population of Zimbabwe through the schools, these children will grow up to be the parents and future leaders of this nation.

---

**Current Need:** The first phase will be to train and equip 325 schools using the Leader-Based strategy, which will reach an average of 500 children in each school.

**It takes only \$650 to start Awana in one school.**

God has given us this amazing opportunity. Would you prayerfully consider partnering with us?

---

**Phase One Funding Need: \$75,000**

Fund Code: XA005

Includes 15% ministry share: a Ministry Share of 15 cents of every contributed dollar is used for curriculum development, licensing, reporting, creative services, technology, our global presence, facilities, equipping the field teams, donor care, receipting, and raising additional ministry support to fuel Awana's global ministry and propel us towards greater ministry impact.
